

Dear Sir/Madam,

I am Flóra Keszei from Medicolink. I am writing in order to inquire information about advertisement possibilities on your university website or in the alumni newsletters. We are a Danish company recruiting EU doctors to work in Denmark. Our target group is a very narrow segment, i.e.:

only dentists and specialist doctors (mainly: psychiatrists, radiologists, rheumatologists, GPs, pathologists, neurologists, geriatricians, surgeons, anaesthesiologists, endocrinologists, etc.)

I would be interested in your terms of cooperation regarding the following opportunities:

- posting relevant job ads on the carrier page of the university
- including our offers and services in newsletters (preferably in the alumni newsletters since we are mainly looking for doctors with experience)
- participation of job fairs

For both of these options, I would like to know the number of doctors and students that registered for the alumni newsletters from the mentioned specialities, who visit your job ads, and who are enrolled for your newsletters.

Could you provide me some information regarding these details?

I would also be glad to clarify any emerging questions of course.

Thank you for your feedback in advance!

Best regards,

Flóra Keszei
