

investigadores predoctorales en Investigaciones Biomédicas de Aragón

**Welcome to the ipIBA seminar series 2023/2024**

Short informal talks given by **predoctoral researches of Aragón** with the aim to promote 2 main goals:

1. **Networking** between predoctoral and postdoctoral researchers in Aragón.
2. Improve our **communicative skills**.

## “Peculiarities of the retired doctor’s illness process and its deontological implications.”

**Tuesday, November 21<sup>th</sup> 2023**  
**From 9:30 to 10:30**

### Summary:

Physicians have not learned their role as patients and they usually try to self-manage. The aim of my thesis is to find out whether retired doctors (RDs) have the same type of behaviour and whether there are differences with respect to active doctors and other population groups.
